

Dimensional Analysis Homework

Name: _____ Date: _____

Directions: Convert each number to its indicated unit.

1. 50 c = _____ qt

2. 190 mm = _____ dm

3. 32 gal = _____ fl oz

4. 1.42 kg = _____ hg

5. 40 oz = _____ lb

6. 700 in = _____ yd

7. 1,400 L = _____ cL

8. 52 pt = _____ qt

Directions: Complete each statement with <, >, or =.

9. 13.5 hg 1.2 kg

10. 2,400 lb 1.2 T

Find the Unit Rate with the appropriate Units

11. \$284 for a four day car rental

12. Jogging 3.5 miles in 30 minutes

13. You are throwing a pizza party for 15 people and figure that each person will eat four slices. You call the pizza place and learn that each pizza will cost you \$14.78 and will be cut into 12 slices. How much is the pizza going to cost you?
