Hints if you're struggling in your math class:

- 1) Ask more questions during class.
- 2) Take good notes – write down **everything** your teacher writes on the board.
- 3) Do **all** your homework.
- 4) Form a Study Group with other students in your math course – they don't have to be in your same period.
- 5) See your teacher before or after school for extra help.
- 6) See other math teachers on the list above outside of class for extra help.
- 7) Starting after Labor Day, get peer tutoring from Mu Alpha Theta students Tuesday mornings 7:45-8:15 in Room 301, or through the National Honor Society on Tuesday, Wednesday, or Friday mornings before school in room 808.
- 8) Take advantage of online resources for your textbook.
- 9) Don't wait until the morning of a test or quiz to start getting help – plan ahead!

*If **all** the above isn't enough, consider hiring a math tutor to address specific weaknesses.
